Russell, H. Reporter High Times

8/19/91

Dear Harold –

Included are various articles regarding the assassination – most of them have to do with Oliver Stone's movie and the movie about Jack Ruby starring Danny Aiello.

There's a couple of longer articles on Stone, including one from The Hollywood Reporter. The article in High Times has Mark Lane inferring that George Lardner is a CIA spook and Gary Shaw says that Lardner "is bought and paid for." Nowhere is it mentioned that you pointed out some facts in the Washington Post piece. You are given thanks with others for help on the article on page 6. Another article from High Times is on Mae Brussell.

Not much else to report. I'm sending this from work, so if you write back don't write to the return address there. Write to me at home: 13237 MORRISON ST. / SHERMAN OAKS, CA 91423

Hope all is well with you.

Best

Robert
